STORA V P2 10pcs

STORAP2V

FFP2 mask with valve that provides effective respiratory protection

FFP2 mask that provides **effective respiratory protection** against harmful solid and liquid particles, up to 10 times the workplace limit value. Thanks to the **special shape, soft materials** and **flexible nose bridge**, the mask can be adjusted precisely and seals perfectly. Comes with **exhalation valve**.

- Non-woven synthetic material
- Exhalation valve

Size range	EU UNI
Sample weight	0.014 kg
Norms	BS EN 14683:2019

285

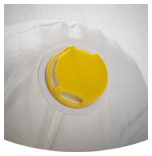
Effective respiratory protection
Over 94% of filtration, less than 8% leakage.

Flexible nose bridge
Helps to seal the mask perfectly.

Contoured shape
Offers a perfect fit.

Elastic ear loops and head strap
For a secure fit behind the ears and head.

Breathable
Offers maximum breathability.



Exhalation valve
The additional valve supports easy exhalation and reduces fatigue during long work sessions.
