### Fashionable safety shoe with extraordinary technical features

The Safety Jogger DAKAR is more than just a safety shoe. It's a companion for all your adventures. Thanks to its water-resistant upper and unbeatable slip resistance, it thrives in tough, humid environments while keeping your feet dry. It boasts an S3 certification, featuring a steel toe cap and puncture-resistant midsole that block sharp objects.

#### SRC slip resistance

Slip resistant soles are one of the most important features of safety and occupational footwear. SRC slip resistant soles pass both SRA and SRB slip resistant tests, they are tested on both steel and ceramic surfaces.

#### S3

S3 safety shoes are suitable for work in an environment with high humidity and presence of oil or hydrocarbons. These shoes also protect against perforation risk of the sole, and foot crushing.

#### Steel toecap

Robust metal support to protect the feet of the wearer against falling or rolling objects.

#### Antistatic

Antistatic footwear prevents build-up of static electrical charges and ensures that they are discharged effectively. Volume resistance between 100 KiloOhm and 1 GigaOhm

#### Steel midsole

Puncture resistant steel midsoles are made from stainless or coated steel and prevent sharp objects from penetrating the outsole.

#### SJ Foam

Removable comfortable antistatic footbed providing fit, guidance and optimum shock absorption in heel and forefoot. Breathable and moisture absorbing.
