Edge Dyna 106

Notified Body	CE 2777	
Article number EAN	EGBLK106G	8719159007380
Standards	EN360:2002	
Materials	Enclosure	ABS
	Screw	Stainless steel
	Cable	4.7mm Galvanized Steel Cable
	Hook	Alloy steel, 18 mm opening
Definition	<ul style="list-style-type: none">  Fall protection made of metal elements mounted in an ABS sealed housing;  It includes a self-retracting, galvanized cable;  A shock absorber is integrated into the system;  Working length of 6 meters;  Anchor attachment with swivel eye;  Exclusively for vertical use. 	
Technical specifications	Maximum total fall	1.5 meters
	Maximum stopping power	6 KN (0.6 meter free fall)
	Minimum breaking strength	> 12 kN
	Maximum workload	140 KG
Weight	3.4 kg	
Packaging	Cardboard box, instruction manual included.	
Lifetime	<p>Up to 10 years after commissioning.</p> <p>Single-user fall arrest blocks, which were periodically inspected by experts and recorded in the inspection logbook, carefully handled and maintained, stored in accordance with regulations, were not in contact with oil, grease or harsh chemicals, can be used for up to 10 years. Follow the user manual!</p>
