## FLUX S3S MID TLS

FLUXS3SMTL

**Lightweight comfortable and metal-free S3S mid-cut with TLS closing**

The FLUX S3S MID TLS is a low-cut safety shoe with a synthetic nubuck upper for water resistance and durability. Features a nanocarbon toecap, metal-free puncture-resistant midsole, and PU cleated outsole for strong grip on dry, wet, and slippery surfaces. Equipped with a TLS-closure system for easy and quick adjustment.

Category	S3S / SR, SC, ESD, CI, FO
Size range	EU 35-50 / UK 3.0-14.0 / US 3.0-15.0 JPN 21.5-33.0 / KOR 230-330
Sample weight	0.573 kg
Norms	EN ISO 20345:2022+A1:2024 ASTM F2413:2024

### TLS (Twist Lock System)

Safety Jogger's innovative TLS closure allows you to quickly tighten and loosen your safety footwear with one hand and under any conditions, even when you are wearing safety gloves. TLS ensures a fast, safe and easy precision fit that offers enhanced comfort and enables you to perform at your best.

### Electrostatic Discharge (ESD)

ESD provides the controlled discharge of electrostatic energy that can damage electronic components and avoids risks of ignition resulting from electrostatic charges. Volume resistance between 100 KiloOhm and 100 MegaOhm.

### Scuff Cap (SC)

Separately tested material to cover the toe cap area to reduce abrasion of the upper material (e.g. during kneeling operations) and extend usability of the safety shoe.

### Slip resistance (SR)

Replaces the previously used term of SRA+SRB=SRC. SR means the slip test has been executed on tiles contaminated with soap and with oil.

### Breathable upper

Increased moisture and temperature management for extended wearer comfort.

### Nano carbon toecap

Ultralight high-tech material, metal-free with no thermal or electrical conductivity.
