Oxysafe

CE standard
CE EN 20347 certified.

Washable at 86 F or 30° C

Chemical and UV sterilizable

Not suitable for autoclave
Attention: this model can not be sterilized in an autoclave.

Shock absorbing
The construction of the heel makes it very shock absorbing.

Ethylene vinyl acetate (EVA)

The shoe is made of EVA, this material is water proof, antibacterial and antifungal. It is very light, flexible and deformation resistant.

Reinforces toecap

This shoe has a reinforced toecap in composite and protects against impacts with an energy level up to 100 Joules.

Ultra light

The average weight of the shoe is 250 grams and one of the lightest safety shoes currently available on the market.

Anti-static ESD

The shoe has a plug that provides dissipation of static electricity to be conform with the ESD standard.

Slip resistant SRC

The rubber outsole provides excellent grip, both on wet and dry floors and complies with the SRC standard.
